TACTICAL

7 SERIES: ARMED WITH DIVERSITY

In support of the thin blue line, we have innovated flashlight technology, so you'll be ready for whatever is on the other side of the dispatch call. Our new 7 Series Tactical Flashlights are diverse, tough and the smartest tactical lights to hit the streets. With wireless or USB rechargeability, battery level indication and up to 1000 plus blinding lumens, you'll now be in control of the brightest Pelican™ tactical flashlights. And with Type III hard anodized finish, dual switches and Bluetooth™ app programming, these flashlights are engineered to answer any call.

DON'T LOOK BACK

7600 / 7100 / THE PIONEERS PUSHING PELICAN TACTICAL LIGHTING TO THE FOREFRONT

Our 7600 and 7100 are Pelican's first advanced tactical flashlights to set the standard and pave the way for high performance with tough as nails DNA you'll find in the 7 Series family. From selectable and programmable modes - ranging from strobe to super bright lumens, traffic wand options and battery level indications, you'll see that these flashlights are tough and versatile. You'll never look back.

MORE THAN AN ON/OFF SWITCH

7070R / THE MOST TECHNOLOGICALLY ADVANCED FLASHLIGHT

Dual Switches

Think of it as Artificial Intelligence in a flashlight. The new 7070R can be programmed via Bluetooth™ app and USB wireless rechargeability keeps the 7070R free from connecting USB cables directly to the flashlight. Dual Switch technology activates the flashlight by forward or rear mounted switches giving you the option to move from duty to tactical situations instantly.
