

INTRODUCING PELI-HARDIGG™ LIGHT LIFT™ CASES
NEW LIGHTWEIGHT VERSION OF OUR HEAVY DUTY ROTO MOULD LINE

Peli-Hardigg™ Light Lift™ cases combine agility and durability. At 30%* lighter than our traditional heavy-duty roto mould cases, the Peli-Hardigg™ Light Lift™ series allows for faster deployment and reduced shipping costs, without compromising protection.

The Peli-Hardigg™ Light Lift™ series is the most significant advancement of roto moulded cases on earth.

Peli-Hardigg™ Light Lift™ series: Every ounce counts.

Pallet of 15 Peli-Hardigg™ AL2914-0605 Light Lift™ cases saves 44 kg. when compared to equivalent heavy-duty roto mould case sizes.

LOWER
TRANSPORTATION
COSTS

- ▶ Less shipping cost
- ▶ Less fuel cost
- ▶ Less landing fees
- ▶ Less man power

* Weight varies ±5% based on case size/model

ROTATIONALLY MOULDED EFFICIENCY

ROTO MOULDING LIGHT LIFT™ CASES

Our cases begin as a resin powder specifically formulated for Peli-Hardigg™ Light Lift™ cases. The resin is loaded into moulds attached to a biaxial arm, then heated and rotated. This process distributes 20% more resin in the corners and edges where it is needed the most.

“HUMAN CARRY” MISSION

Peli-Hardigg™ Light Lift™ cases are targeted toward 2-man and 4-man carry applications, allowing for lighter carrying loads for faster and easier transport.

SIZE MATTERS

Soon you can order a Peli-Hardigg™ Light Lift™ case equivalent to most Peli-Hardigg™ heavy-duty roto mould cases. We’re launching this series in 28 popular sizes with an additional 132 sizes scheduled for deployment. From small to XXL large, you’ll find the perfect fit. Visit Peli.com/Lightlift for size availability.

Light Lift™ case shown in
custom blue colour and water
jet precision cut foam.

CUSTOMISATION WITH ENGINEERED PERFECTION

Our engineers work with you to understand all the details, then we strive to build the best solution to protect your gear.

Exterior options include a wide colour pallet, stencils and custom designed decals, to name a few. And for internal protection, multiple foam options with unique properties are also available. Anti-static foam protects delicate electronics and heavy duty precision cut foam will keep your gear in place and absorb shock from major impact. When foam is not appropriate, Peli specialises in custom metal work. Cradles or frames hold sensitive parts away from the walls of the case.

All Peli-Hardigg™ Light Lift™ cases come standard in grey, feature catch & strike hardware to tightly secure the lid, and include recessed handles to prevent shearing or snagging from outside forces. Optional accessories such as a purge valve to balance air pressure are available.
