

9410L FLASHLIGHT END OF LIFE

TECH BULLETIN | DEC 2023

DESIGNED IN

U S A

SINCE 1976

DISCONTINUED

Pelican will be discontinuing the Pelican™ 9410L Flashlight in March 2024.

Remaining product quantities are limited, and orders will continue to be filled while supplies last.

DIRECT REPLACEMENT

The Pelican 9050 Lantern is the next-generation replacement to the 9410L Flashlight, featuring a number of upgrades.

- » **Flexible Battery System**
The 9050 can run on Li-ion battery packs, AA Alkaline or AA NiMH cells
- » **Replaceable Battery Pack**
Easily swap battery packs on the fly to keep the scene illuminated.
- » **Improved Illumination**
Articulating light head rotates up to 112° and can switch between Spot, Flood, Spot/Flood and Flashing modes.
- » **Increased Performance**
The 9050 features a 50% increase in lumen output when compared to the 9410L Flashlight with a maximum output of over 3,300 lumens.
- » **Quick-Release Charger Base**
Convenient charger base provides quick mounting and dismounting.
